- **Core:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Styling:** Tailwind CSS, Bootstrap
- **State Management:** Context API, Axios, AJAX, Redux
- **AI Tools:** Cursor, Claude, Opus debugging and refactoring
- **Tools:** Git, GitHub, Figma
- **Other:** Responsive Design, REST APIs consumption, Component Libraries

Projects

Innova Hub (Graduation Project - Grade: Excellent)   **GitHub**

- Built a smart e-commerce & social platform using **React.js**, enabling small businesses to post products, manage deals, and connect with investors through a responsive, modern UI.
- Integrated AI-driven analytics for real-time insights using API integration, reusable components, state management (Context/Redux), and **Tailwind CSS**.

Fresh Cart   **GitHub**
- Developed a fully responsive e-commerce web application using Angular and Bootstrap, featuring product listing, search, filters, detailed product views, and shopping cart with data fetching via Angular services and HTTPClient.
- Built reusable components, services for API integration and state handling, deliver clean architecture and modern, user-friendly shopping experience optimized for all devices.

Certificates

- **ITI |** Summer Course Front-End Development
- **Route Academy |** Front-End Development
- **IBM |** Work with Agility
